## Hot Lemonade

SIMPLE precautions, but wonderfully helpful in avoiding grippe and colds from exposure. When you get home, put on dry clothing, get thoroughly warm, and drink hot lemonade—plenty of it and piping hot. Use hot water and "Sunkist" lemons—one to each glass.

California's  
**Sunkist**  
Uniformly Good Lemons

When you order lemons, ask for Sunkist, the uniformly good California lemons. Sunkist are waxy, tart and juicy. See that they reach you in the clean, crisp tissue wrappers stamped "Sunkist." They will stay fresh much longer if you leave them in these wrappers until you use them. Always have at least a half dozen in the house.

### RADIUM EFFECTIVE ONLY AS PALLIATIVE, DOCTOR REPORTS

Research Said to Show It Is Unsatisfactory Means for Cure of Malignant Tumors.

NEW YORK, Feb. 15.—Radium is not a satisfactory means for the cure of malignant tumors, but it is the best palliative treatment available in a number of cases, according to Dr. Francis Carter Wood, director of the Crocker Cancer research Laboratory at Columbia University, as published today in a supplementary report on the years' activities at the laboratory.

"It is undoubtedly possible to prolong life and to render the patient

more comfortable by the judicious and intelligent employment of large quantities of the substance, but it is equally certain that the use of small quantities of the element in such cases often results in a rapid extension of the tumor, so that the patient's condition becomes much worse than it would have been had he been left alone," Dr. Wood says in his report.

#### Takes Prisoner Back.

The marshal of North Powder arrived in Pendleton yesterday and took back with him Marshall Ray, charged with passing bad checks and picked up here through the sheriff's office. The man picked up with him was released.

# YES, This is the Car---

A 5-passenger beauty, saves you \$160, if bought today

Not all people prefer this kind of car. Perhaps only eight out of ten people do.

To make sure that it will suit you and yours, come and let an experienced and highly intelligent man show you some of the many things that stand out and make a Chalmers a Chalmers.

#### Take the Motor, for Example

It is the most famous and most used of all Chalmers motors. It has high power capacity.

That, certainly, is a logical and extremely sensible type of motor to own. It is never under a strain. At 45 and 50 miles an hour it is using only a part of its power.

#### It Saves Itself

And in so doing, saves many a dollar. Conservation of energy means conservation of fuel.

Watch your gasoline bills go down when you drive this Chalmers.

Better see the motor first. It is the most important thing. But in your enthusiasm, don't miss one other feature—the dimensions of the body. There are four inches more room in the front compartment than you re-

ally need, and eight inches surplus leg room in the rear compartment.

Note the rear seat cushion. It is three inches wider than it needs to be. Every dimension in the body seems decidedly generous.

#### These Are Mere Hints, However

It would be quite impossible to describe the 6-30 5-passenger Chalmers, and you have no way of knowing whether this Chalmers suits you without seeing it.

That makes necessary a trip to the Chalmers sales-room.

If this Chalmers does suit you, then you won't have to be reminded of the \$160 saving—the item is far too important.

The 2-passenger Chalmers roadster, built on the same chassis, advances in price \$180 on March 1.

# A Wonderful Combination

Size---Power---Economy

# COLE

# 8

CONFINING our entire production to a single eight-cylinder chassis.

It is known to be most remarkable of all the many Cole achievements. It is the largest Eight built—but relatively the lightest.

Think for a minute what that means. Here is a car that rides with the ease of a bird on the wing.

Its motor has the quick response, the noiseless action and the tremendous vitality possible only in an Eight. Its body has the room and the luxurious comfort that size alone can give.

Yet the light weight of the Cole Eight safeguards your pocketbook. It gives you more miles per gallon of gas than most sixes—more than some fours.

In short, the Cole Eight couples the known advantages of size and power with those of lightness and economy.

No wonder the Cole Eight is a phenomenal success.

No wonder we are producing three times as many cars as we did at this time last year—and are building nothing but Cole Eights.

Our dealer in your town will gladly demonstrate any Cole Eight model.
